

With American Appliance's Annual Maintenance Program, we'll do regular, basic maintenance on all your major appliances. You'll gain peace of mind, knowing that your appliances will continue to run at their peak, and they won't conk out on you when you need them most, whether you're cooking for an important dinner party, or a family gathering at the holidays.

Keeping Your Refrigerator Cool (Inside and Out)

Did you know that the reason most refrigerators fail is because the condenser has not been properly cleaned or maintained? A dirty condenser can lead to quicker food spoilage, costing you much more in terms of expensive food loss. With American Appliance's Annual Maintenance Program, not only will we make sure your condenser is squeaky clean, we'll check your entire appliance from top to bottom to ensure everything is working properly.

With the Annual Protection Plan, we will:

- Clean and inspect the condenser
- Check all noise levels
- Check door adjustments
- Check operating temperatures
- Check all product lights
- Conduct an overall evaluation of your appliance

Keeping Your Cooking Instruments Hot

The reason your baked goods may not be rising properly isn't necessarily because of Colorado's high altitude. Likewise, other things may be causing your water to boil more slowly. Just like your refrigerator, your range, oven and/or cook top must be properly maintained and cleaned to perform their best.

With American Appliance's Annual Maintenance Program, we will:

- Check oven temperature settings
- Inspect oven operations, including preheat, bake, broil, etc.
- Inspect and test all burners and heating surfaces
- Conduct a safety inspection
- Inspect door hinges and door latch operation
- Conduct an overall evaluation of your appliances

Keeping Your Cleaning Appliances Clean

Don't forget your dishwasher, washer and dryer. Like your other appliances, your dishwasher, washer and dryer need to be cleaned and maintained to operate properly. Ensure your dishes come out their cleanest, and your clothes come out their freshest with American Appliance's Annual Maintenance Program.

Enrolling in American Appliance's Annual Protection Plan gives you comfort in knowing that your appliances have been examined by certified technicians. Call us today at (303) 777-0993 to find out more about keeping your appliances performing their best.

Annual Maintenance Program Pricing

Single Appliance

1 year	\$129
3 years	\$379
5 years	\$625

Full Kitchen and Laundry Room

(Covers up to 6 appliances. Oven and range top combo count as one appliance.)

1 year	\$299
3 years	\$829
5 years	\$1,329

Each Additional Appliance

1 year	\$50
3 years	\$149
5 years	\$209

The Annual Maintenance Program covers all labor to clean and maintain your appliances. Any necessary parts and repairs are extra and will be billed separately. As an annual program maintenance member, you'll receive 20% off of any additional repairs. Plus, the plan is transferable should you replace your appliance during the program period.

Enrolling in the Annual Maintenance Program:

- Can extend the life of your appliance.
- Can help prevent expensive food loss.
- Helps prevent unexpected and expensive repairs as a result of improper cleaning and maintenance.
- Gives you peace of mind, because you don't have to worry about your appliances. We will contact you and remind you when it's time for maintenance, so all you have to do is confirm your appointment.
